Our company has been granted the Authorized Economic Operator (AEO) Certificate as a result of a comprehensive evaluation conducted by the Republic of Türkiye Ministry of Trade. This evaluation covered compliance with customs obligations, the robustness of our record-keeping systems, financial adequacy, and adherence to safety and security criteria.

The AEO status is an internationally recognized designation that provides certain facilitations in import and export operations. Companies holding this certificate benefit from reduced physical inspections, faster customs processing, and simplified procedures.

Through this certification, our company's operational reliability in foreign trade and compliance with international regulations have been officially recognized. This development not only strengthens our position within the global supply chain but also supports our strategic objectives by increasing operational speed, flexibility, and cost efficiency in trade processes, thereby contributing positively to our competitive position in the market.
